

ACCESSORIES TOP COVER

-  CERTIFIED HYGIENIC
-  MINIMIZED CLEANING TIME
-  MINIMIZED WATER USAGE

The top cover is designed to be used in situations where the top of the thread is exposed, which compromises the hygienic performance and certification of the levelling foot.

By applying the top cover the exposed thread is hygienically covered. The top cover can also function as counter nut.

The top cover is supplied with a blue sealing detectable by scanning systems and minimum cleaning effort is obtained due to the self-draining design.

Available in standardized and customized dimensions.
